••••• Affinity Photo Sketchbook app for mac If you're looking for a photo editing app that goes above and beyond for the pricetag, while still allowing you complete creative control over your images, then it might be worth it to take a peek at Affinity Photo.. Keep in mind, there are two versions of the app — there's the Classic version, which is more preferred, and the 2018 CC version.

Affinity Photo supports unlimited layers, groups, layer adjustments, filters, masking, and more: you also have access to tools like dodge, red-eye fix, burn, blemish, clone, and patch (so pretty much Photoshop without all the convoluted bells and whistles)..
